

“Climate Proofing for Development”

.... because **what** we do and **the way in which** we do it has to be put to the test!

Climate Information needed

The GIZ/OECD training course covers every step.

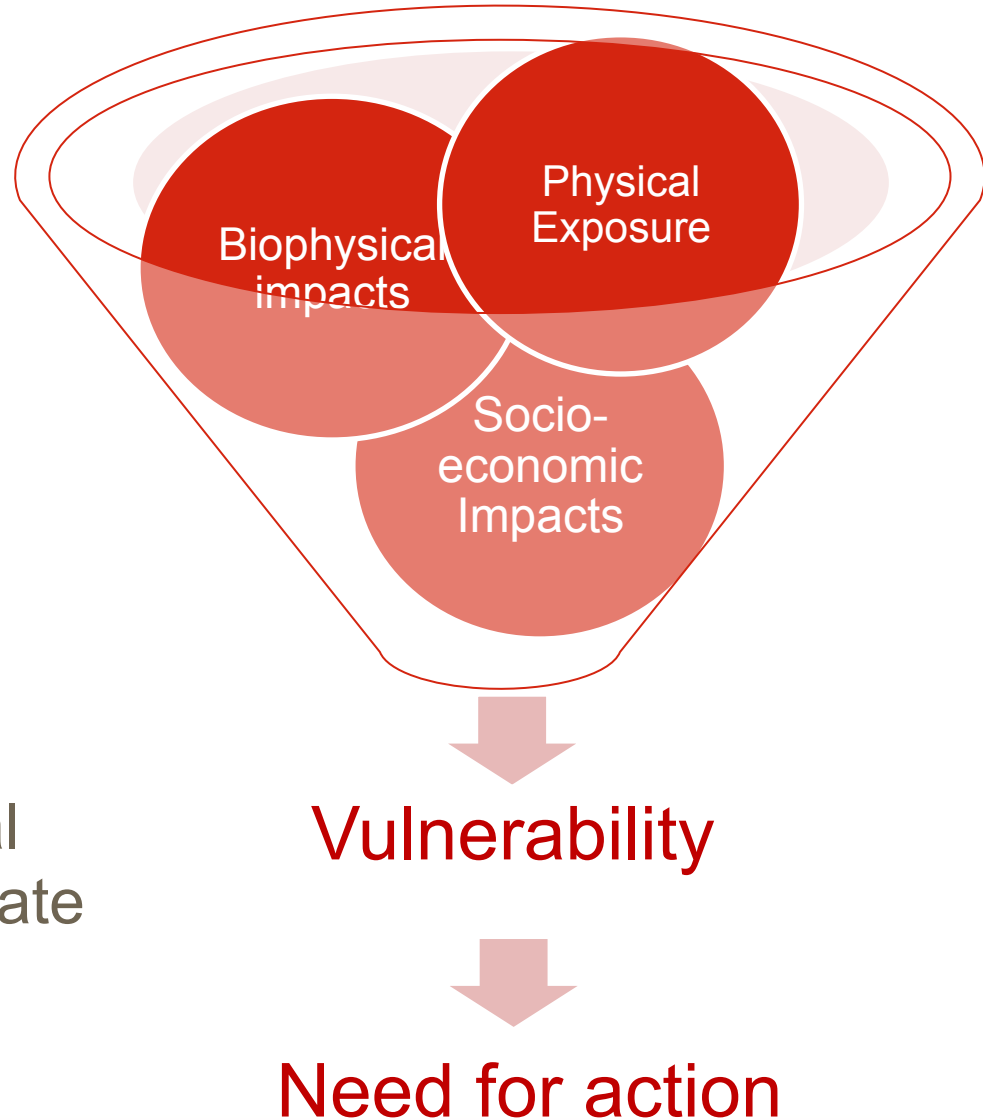

Climate Information

Reliable information about different issues is needed for assessing vulnerability:

- Physical exposure
- Biophysical impacts
- Socio-economic impacts

► The training puts special focus on working with climate information.

What is available and where can I find it?

- The training package is open to public use and can be found at the OECD website:
<http://www.oecd.org/dac/environment-development/integratingclimatechangeadaptationintodevelopmentplanningapractice-orientedtrainingbasedontheoecdpolicyguidance.htm>
- Available are: **training manual, handouts, presentations, trainer's handbook**
- Languages: English, Spanish and French

If you would like to customise presentations to the specific requirements of your audience, you can receive the ppt-versions of the presentations upon request from climate@giz.de.

You are also welcome to contact climate@giz.de for any further questions regarding the material!
